

LOST

Will we see the sun shining,
will you be the one to lead us away,
lead us to freedom,
trusting and believing we can be found,
don't give up now

Is it day,
is it night,
which way to the light,
lost in the dark all alone,
we're calling out

Is it day,
is it night,
which way to the light,
lost in the dark all alone,
we're calling out

Is it day,
is it night,
which way to the light,
lost in the dark all alone,
we're calling out

Is it day,
is it night,
which way to the light,
lost in the dark all alone,
we're calling out to you

We need a friend to show us the way,
to keep a bright flame burning day by day.

Hidden deep below,
Darkness in my soul,
Dreaming of the light,
Warm, alive and bright.

Will we see the sun shining,
will you be the one to lead us away,
lead us to freedom,
trusting and believing we can be found,
don't give up now
